GALLAGHER & MOHAN
Real Service Through Global Systems

Financial Analyst

Experience: 1-3 Years Delhi, Chhattisgarh Full-Time

Hiring: Financial Analyst

Company Overview:

Gallagher & Mohan is a distinguished firm specializing in delivering world-class financial analysis, marketing expertise, and accounting support tailored to the real estate sector. We serve an exclusive clientele of private equity investors, developers, fund managers, brokers, and other industry leaders. Renowned for our commitment to excellence, clear communication, and strong work ethic, we seamlessly integrate with our clients' teams to create long-term value. Our portfolio spans diverse real estate transactions—from multifamily apartment communities to large-scale office towers across the United States and European markets, with deal sizes typically ranging from $25 million to over $500 million USD.

Role Overview:

As a Financial Analyst at Gallagher & Mohan, your primary focus will be on leveraging Discounted Cash Flow (DCF) modeling to deliver sophisticated financial analysis and insights. You will be responsible for creating and managing complex financial models, optimizing asset valuations, and providing actionable recommendations based on detailed DCF analyses.

Roles & Responsibilities:

- **DCF Modeling:** Construct and refine Discounted Cash Flow (DCF) models to evaluate investment opportunities, asset performance, and future cash flows. Provide in-depth analysis and interpretation of model outputs.
- **Model Optimization:** Optimize and update Argus models to reflect changing market conditions, investment strategies, and financial structures. Ensure models are aligned with current financial practices and industry standards.

- **Market Analysis:** Conduct detailed market research and analysis to support Argus , Multi family assets and DCF modeling, including assessing property comparables and evaluating market trends.
- **Reporting & Insights:** Prepare and present detailed financial reports and insights based on Argus and DCF analyses. Communicate findings and strategic recommendations to senior management and clients.
- **Collaboration:** Work closely with internal teams during acquisitions, dispositions, and development projects, providing specialized Argus and DCF analysis to support strategic decision-making.
- **Performance Evaluation:** Assess and report on the performance of investments using key performance indicators (KPIs) such as IRR and Cash-on-Cash returns, integrating these metrics into Argus and DCF models.

What We Are Looking For:
Requirements – Skills, Knowledge, and Abilities:

- **Educational Background:** Bachelor's degree in Real Estate, Business, Economics, Finance, or a related field.
- **Argus Expertise (preferred):** Extensive experience with Argus Enterprise software, including developing and managing detailed financial models for real estate assets.
- **DCF Proficiency:** Strong proficiency in Discounted Cash Flow (DCF) modeling, with the ability to create and analyze complex financial models and scenarios.
- **Experience:** 1-4 years of experience in financial modeling with a focus on Argus and DCF methodologies and Multi family assets . Background in equity research, investment banking, or real estate finance is advantageous.
- **Analytical Skills:** Exceptional analytical and problem-solving skills, with a focus on deriving actionable insights from Argus and DCF analyses.
- **Communication:** Strong written and verbal communication skills, with the ability to present complex financial concepts and findings effectively to diverse stakeholders.
- **Organization:** Excellent organizational skills, with the ability to manage multiple tasks and priorities in a fast-paced environment.
- **Team Collaboration:** Proven ability to work effectively with cross-functional teams and contribute to a collaborative team environment.

Desired Qualifications:

- **Software Proficiency:** Advanced skills in Microsoft Office Suite, especially Excel, for financial modeling and analysis.
- **Advanced Degree:** Master's degree in finance, Business, Real Estate, or Economics is preferred.
- **Certifications:** Candidates who have completed or are working towards CFA, CA, or FRM certifications will be considered favorably.
- **Additional Software Knowledge:** Familiarity with other real estate software/programs, such as Yardi Voyager and Google Earth, will be a plus.

Job Details:

- **Title: Financial Analyst**
- **Department: Financial Analysis**
- **Employment Type: Full-Time, Permanent**
- **Location: Remote (New Delhi)**
- **Shift Timings: EST/PST (US Time Zone)**

Join Gallagher & Mohan to apply your expertise in DCF modeling, driving impactful financial analysis and strategic decision-making in our dynamic real estate investment environment.
