WORK EXPERIENCE

Incedo Technology Solution Limited, Gurugram, India
Associate *May 2025 to Present*

- Monthly MIS took 4 hours per cycle through manual work. Rebuilt it in Excel with Power Query, Macros/VBA and Power BI, cutting preparation to 35 minutes and delivering on Day 1 of close instead of Day 3.
- Entries across 5 cost centres showed unexplained deviations. Verified each entry, coordinated with business teams on client queries, and closed ₹25L+ in deviations within 15 days.
- Services worth ₹18L were delivered but not billed. Built a billing and unbilled revenue tracker with follow ups, bringing ageing beyond 30 days to zero within 60 days.
- Prepared reports and presentations for senior stakeholders with documented assumptions and delivered each assignment on schedule.

ArtHousing Finance Limited (NBFC), Delhi, India
Associate *Nov 2024 to May 2025*

- Supported property site visits and verification for loan files, documenting findings for credit review and benchmarking properties against the loan details.
- Incorrect vendor rates were reaching approval undetected. Designed a validation control, taking TDS misapplication to zero over two quarters.
- Daily reconciliation across 5 systems took 3 hours and left 8 to 10 unmatched items. Rebuilt it with Excel Power Query, cutting time to 40 minutes and unmatched items to under 2, with zero carryover in 11 of 12 months.

PROJECTS

- Zomato and Swiggy M&A Model: built DCF, LBO and comparable company analysis with documented assumptions and conclusions.
- Visante LBO and DCF Model: built IRR and NPV outputs with a clear assumptions sheet.
- RBL Bank Equity Research Report: 32 pages with a HOLD recommendation; identified a material NII formula error and a P/B discrepancy against external filings.
