EQUITY RESEARCH | FUNDAMENTAL ANALYSIS & VALUATION | FINANCIAL MODELING | LISTED INDIAN EQUITIES

PROFESSIONAL SUMMARY

Finance professional with 2+ years of FP&A experience and independent, institutional-grade equity research work on listed Indian equities. Built a full sell-side-style research report on RBL Bank Ltd. covering variant perception, scenario valuation, asset quality and credit-cost underwriting, catalysts/risks/falsifiers, and an investment-committee monitoring dashboard — self-initiated, not assigned. Strong financial statement analysis, DCF/LBO/comparable company modeling, and a high-ownership, self-directed mindset suited to a lean research desk.

WHY HIRE ME FOR THIS ROLE

- I've already produced institutional-grade sell-side research independently — my RBL Bank report includes a full variant-perception framework, scenario valuation, catalysts/risks/falsifiers, and a monitoring dashboard, the same output format this research desk runs on.
- My day-to-day work is financial statement and variance analysis at scale — I identified ₹25L+ in deviations across 5 cost centers and built forecasting models, the same analytical rigor needed to track portfolio companies and flag emerging risks.
- I built my research with no mandate, template, or oversight — the self-starting, high-ownership mindset a lean two-person desk needs, demonstrated rather than claimed.

EQUITY RESEARCH & FINANCIAL MODELING (INDEPENDENT)

- RBL Bank Ltd. — Institutional Equity Research Report: Built a full research report with investment thesis and variant perception, post-transaction capitalization analysis, historical financial performance, business-mix and growth underwrite, funding/NIM/profitability debate, and asset-quality and credit-cost underwriting.
- Issued an explicit investment posture (Watchlist/Neutral) with scenario valuation (P/B multiples, ROE bridge decomposition), sensitivity analysis, catalysts/risks/falsifiers, management diligence questions, and an investment-committee monitoring dashboard — maintained to institutional disclosure standards with a sourced citation register and evidence hierarchy.
- Eternal (Zomato) / Swiggy — M&A Financial Model: Built a multi-sheet model for a hypothetical acquisition scenario, including DCF valuation, LBO analysis and trading comparables.
- Visante — LBO/DCF Valuation Model: Leveraged buyout and discounted cash flow valuation model for a target company within a structured Excel workbook.

PROFESSIONAL EXPERIENCE

Incedo Technology Solution Limited — Gurugram, India
Associate (FP&A) *May 2025 – Present*

- Performed financial statement and P&L variance analysis across 5 cost centers, identifying ₹25L+ in cost deviations and enabling corrective action within 15 days.
- Built financial models for annual budgeting and quarterly forecasting across 5 departments, improving forecast accuracy by 18% quarter-on-quarter.
- Partnered with finance and business stakeholders to explain variances and support financial performance analysis and reporting.

ArtHousing Finance Limited (NBFC) — Delhi, India
Associate *Nov 2024 – May 2025*

- Rebuilt daily reconciliation across 5 systems, cutting processing time from 3 hours to 40 minutes and unmatched items from 8–10 to under 2.
- Reviewed financial transactions and reconciliations in a regulated NBFC environment, maintaining audit-ready records for compliance review.
