FP&A | BUDGETING & FORECASTING | VARIANCE ANALYSIS | FINANCIAL MODELING | POWER BI & AUTOMATION

PROFESSIONAL SUMMARY

FP&A Analyst with 2+ years preparing budgets, forecasts, and variance analysis against plan, and building financial models to support business decisions. Owns recurring management reporting and KPI dashboards end-to-end — from Excel-based variance analysis to Power BI dashboards — and has used Python/Streamlit to automate forecasting and reporting workflows, cutting cycle times and manual effort. Strong stakeholder partner for explaining variances and translating financial data into decision-ready recommendations; comfortable owning process improvement and automation initiatives independently.

WHY HIRE ME FOR THIS ROLE

- Budgeting, forecasting, and variance analysis against plan are my core, current responsibilities — I standardized the annual budgeting and quarterly forecasting cycle across 5 departments, cutting it from 4 weeks to 11 days and improving forecast accuracy by 18% quarter-on-quarter.
- I don't just report variances, I act on them — I identified ₹25L+ in cost deviations across 5 cost centers and drove corrective action within 15 days, reducing unplanned cost overrun by 30% over two quarters.
- I've already streamlined and automated recurring FP&A workflows using AI-enabled and low-code tools — building a Python/Streamlit forecasting dashboard and automating monthly P&L/MIS reporting with Power Query, Macros/VBA, and Power BI, cutting prep time from 4 hours to 35 minutes.

PROFESSIONAL EXPERIENCE

Incedo Technology Solution Limited — Gurugram, India
Associate (FP&A) *May 2025 – Present*

- Prepare and maintain budgets, quarterly forecasts, and financial plans across 5 departments, standardizing the planning cycle from 4 weeks to 11 days and improving forecast accuracy by 18% quarter-on-quarter.
- Analyze monthly and annual P&Ls against budget, forecast, and prior periods across 5 cost centers, identifying ₹25L+ in deviations and key trends, and enabling corrective action within 15 days.
- Develop financial models and recurring management reports and KPI dashboards in Power BI and Excel, supporting business decisions and leadership review during month-end and quarter-end close.
- Streamlined and automated recurring FP&A workflows — monthly P&L and MIS reporting — using Excel Power Query, Macros/VBA, and Power BI dashboards, cutting preparation time from 4 hours to 35 minutes and advancing delivery from Day 3 to Day 1 of close.
- Built a billing and unbilled-revenue tracking model that identified ₹18L of unrecognized services, bringing unbilled ageing beyond 30 days to zero within 60 days.
- Partner with finance and business stakeholders to explain variances, support headcount and resource planning discussions, and ensure data accuracy across planning and reporting activities.

ArtHousing Finance Limited (NBFC) — Delhi, India
Associate *Nov 2024 – May 2025*

- Rebuilt daily reconciliation across 5 systems using Excel Power Query, reducing processing time from 3 hours to 40 minutes and cutting unmatched items from 8–10 to under 2; zero carryover in 11 of 12 months.
- Built a TDS validation control that flagged incorrect vendor rates before approval, reducing TDS misapplication to zero over two consecutive quarters and avoiding filing penalties.
- Processed and reviewed financial transactions and reconciliations in a regulated environment, maintaining audit-ready records and supporting data integrity for compliance and management review.

FINANCIAL MODELING & AUTOMATION PROJECTS

- AI Financial Forecasting Dashboard: Built in Python/Streamlit to automate forecasting outputs, variance flags, and reporting; deployed on GitHub.
- RBL Bank Ltd. — Equity Research & Valuation: Independent financial modeling exercise covering scenario valuation, ROE bridge decomposition, peer benchmarking, and sensitivity analysis.
- Eternal (Zomato) / Swiggy — M&A Financial Model: Multi-sheet model for a hypothetical acquisition scenario, including DCF valuation, LBO analysis, and trading comparables.

SKILLS & TECHNICAL PROFICIENCY

FP&A: Budgeting & Forecasting | Long-Range Financial Planning | Variance Analysis | P&L Analysis | Headcount Planning | Management Reporting & KPI Dashboards

Modeling & Analytics: Advanced Excel Financial Modeling (Power Query, Power Pivot, XLOOKUP, Macros/VBA) | Power BI | Python (Pandas, Streamlit) | SAP S/4HANA (FI, CO)

Automation & Process: AI-Enabled Reporting Automation | Low-Code Workflow Tools | Process Improvement | Data Accuracy & Integrity

Professional: Stakeholder Communication | Business Partnering | Root-Cause Analysis | Independent Execution

EDUCATION & CERTIFICATIONS

MBA – Finance | GD Goenka University, Haryana | CGPA 8.3/10 | Finance Club President | 2022–2024
B.Com | University of Delhi | CGPA 6.6/10 | Financial Accounting, Auditing, Income Tax | 2018–2021

Certifications: Financial Planning & Analysis – NASBA | Corporate Financial Accounting – NASBA | Finance Modelling Foundation | SAP S/4HANA Finance Coursework (FI, CO)
