FINANCIAL ANALYSIS | VALUATION & FINANCIAL MODELING | VARIANCE ANALYSIS | CLIENT-READY REPORTING | POWER BI & TABLEAU

PROFESSIONAL SUMMARY

Finance professional with 2+ years of FP&A and financial analysis experience across financial services-adjacent environments (NBFC lending, technology services), plus independent, institutional-grade equity research on listed Indian financial-services companies (RBL Bank). Builds financial models (DCF, LBO, comparable company analysis), analyzes financial statements and P&L variance at scale, and translates findings into client-ready presentations and dashboards using Power BI and Excel. Self-directed, detail-oriented, and comfortable owning analysis from data to decision-ready output.

WHY HIRE ME FOR THIS ROLE

- I've independently produced sell-side-style equity research on a listed Indian financial-services company (RBL Bank) — variant perception, scenario valuation, asset-quality and credit-cost underwriting, catalysts/risks/falsifiers, and a monitoring dashboard — the same analytical depth and client-ready output this role requires.
- My day-to-day work is financial statement and variance analysis at scale — I identified ₹25L+ in deviations across 5 cost centers and built the models and dashboards to track and report them, the same rigor needed to analyze financial-services clients and portfolios.
- I build client-ready and management-ready reporting as a habit, not an afterthought — automating P&L/MIS reporting with Power BI dashboards and Excel models that cut preparation time from hours to minutes while improving accuracy.

FINANCIAL MODELING & RESEARCH (INDEPENDENT)

- RBL Bank Ltd. — Institutional Equity Research Report: Built a full research report with investment thesis and variant perception, post-transaction capitalization analysis, historical financial performance, business-mix and growth underwrite, funding/NIM/profitability debate, and asset-quality and credit-cost underwriting.
- Issued an explicit investment posture (Watchlist/Neutral) with scenario valuation (P/B multiples, ROE bridge decomposition), sensitivity analysis, catalysts/risks/falsifiers, management diligence questions, and an investment-committee monitoring dashboard — maintained to institutional disclosure standards with a sourced citation register.
- Eternal (Zomato) / Swiggy — M&A Financial Model: Built a multi-sheet model for a hypothetical acquisition scenario, including DCF valuation, LBO analysis and trading comparables.
- Visante — LBO/DCF Valuation Model: Leveraged buyout and discounted cash flow valuation model for a target company within a structured Excel workbook.

PROFESSIONAL EXPERIENCE

Incedo Technology Solution Limited — Gurugram, India
Associate (FP&A) *May 2025 – Present*

- Performed financial statement and P&L variance analysis across 5 cost centers, identifying ₹25L+ in cost deviations and enabling corrective action within 15 days, reducing unplanned cost overrun by 30% over two quarters.
- Built financial models for annual budgeting and quarterly forecasting across 5 departments, cutting the cycle from 4 weeks to 11 days and improving forecast accuracy by 18% quarter-on-quarter.
- Automated monthly P&L and MIS reporting using Excel (Power Query, Macros/VBA) and Power BI dashboards, cutting preparation time from 4 hours to 35 minutes and advancing delivery from Day 3 to Day 1 of close.
- Partnered with finance and business stakeholders to explain variances and deliver clear, decision-ready financial analysis and reporting.

ArtHousing Finance Limited (NBFC) — Delhi, India
Associate *Nov 2024 – May 2025*

- Reviewed financial transactions and reconciliations in a regulated NBFC lending environment, maintaining audit-ready records for compliance and management review.
- Rebuilt daily reconciliation across 5 systems, cutting processing time from 3 hours to 40 minutes and unmatched items from 8–10 to under 2; zero carryover in 11 of 12 months.
- Built a TDS validation control that flagged incorrect vendor rates before approval, reducing TDS misapplication to zero over two consecutive quarters.

SKILLS & TECHNICAL PROFICIENCY
