ACCOUNTS RECEIVABLE | ACCOUNTS PAYABLE | INVOICE & PAYMENT FOLLOW-UP | RECONCILIATION

PROFESSIONAL SUMMARY

Finance professional (MBA) with 2+ years of hands-on Accounts Receivable, Accounts Payable, and financial operations experience across a technology services company and a regulated NBFC. Experienced in billing, unbilled revenue tracking, invoice and vendor payment verification, outstanding balance follow-up, discrepancy resolution, and daily reconciliation, with audit-ready documentation and strict SOP discipline. Strong English communication and a track record of meeting daily accuracy targets.

WHY I'M A STRONG FIT

- I already run the receivables cycle: billing, invoice status checks, and ageing follow-up, bringing ageing beyond 30 days to zero within 60 days.
- Payables accuracy is built into how I work: a vendor rate validation check I built took TDS misapplication to zero over two quarters.
- Daily reconciliation targets are routine for me: unmatched items cut from 8 to 10 per day to under 2 across 5 systems.

SKILLS

Accounts Receivable: Billing | Invoice Status Checks | Outstanding Balance Follow-up | Payment Follow-up | Unbilled Revenue and Ageing Tracking

Accounts Payable: Invoice Verification | Vendor Query Resolution | Invoice Discrepancy Resolution | Payment Status Updates | TDS and GST Compliance

Reconciliation & Controls: Daily Account Reconciliation | GL Reconciliation | Exception Tracking | SOP and Compliance Adherence | Audit-Ready Record Keeping

Systems & Tools: SAP S/4HANA (FI, CO) | Tally | Advanced Excel (Pivot Tables, XLOOKUP, Power Query, Macros/VBA) | Power BI

Professional: Written and Verbal English Communication | Vendor and Stakeholder Coordination | Accuracy and Quality Focus

PROFESSIONAL EXPERIENCE

Incedo Technology Solution Limited, Gurugram, India
Associate (FP&A), Accounts Receivable and Accounts Payable *May 2025 – Present*

- Services worth ₹18L had been delivered but not billed, and no one tracked ageing. Built a billing and unbilled revenue tracker with invoice status checks and follow-ups with business teams, bringing ageing beyond 30 days to zero within 60 days.
- Cost and vendor payment entries across 5 cost centers showed unexplained deviations. Verified the entries against budget and resolved vendor and invoice discrepancies with the owners, identifying ₹25L+ in deviations that were all resolved within 15 days.
- Month end reconciliation and MIS reporting relied on manual matching and took 4 hours per cycle. Rebuilt it with Excel Power Query, Macros/VBA, and Power BI, cutting preparation to 35 minutes and delivering on Day 1 of close instead of Day 3.
- Budgeting and forecasting across 5 departments ran on an informal 4 week cycle. Standardized it with finance and business teams, cutting it to 11 days and lifting forecast accuracy 18% quarter on quarter.

ArtHousing Finance Limited (NBFC), Delhi, India
Associate, Financial Operations *Nov 2024 – May 2025*

- Daily reconciliation across 5 systems took 3 hours and left 8 to 10 unmatched items. Rebuilt the process using Excel Power Query, cutting the time to 40 minutes and unmatched items to under 2, with zero carryover in 11 of 12 months.
- Incorrect vendor rates were reaching approval undetected, creating TDS risk. Designed a vendor rate validation control that flagged errors before payment approval, reducing TDS misapplication to zero over two consecutive quarters and avoiding filing penalties.
- Flagged discrepancies had no consistent follow up. Followed up directly with vendors and internal teams on every exception, closed items within set timelines, and kept audit-ready records for compliance review.
