FP&A | BUDGETING & FORECASTING | VARIANCE ANALYSIS | FINANCIAL MODELLING | POWER BI

PROFESSIONAL SUMMARY

MBA Finance professional with 2+ years in Financial Planning and Analysis and financial operations across a technology services company and a regulated NBFC. Experienced in monthly reporting, variance analysis against budget and forecast, budgeting and forecasting, KPI tracking, and Excel and Power BI automation. Comfortable explaining insights to non-finance stakeholders.

WHY I'M A STRONG FIT

- I already do this work: monthly variance reporting across 5 cost centers and budgeting and forecasting across 5 departments.
- Forecasting that improves: cycle cut from 4 weeks to 11 days, accuracy up 18% quarter on quarter.
- Automation mindset: MIS preparation cut from 4 hours to 35 minutes using Power Query, Macros/VBA and Power BI.

SKILLS

FP&A: Monthly and Annual Reporting | Variance Analysis | Budgeting and Forecasting | Financial Modelling | Scenario and Sensitivity Analysis

Performance Monitoring: KPI Tracking | Dashboards | Trend Analysis | Management Insights

Controls & Process: Internal Controls | Audit Support | Reconciliation | Process Improvement

Tools: Advanced Excel (Power Query, Power Pivot, XLOOKUP, Macros/VBA) | Power BI | Python (Pandas, Streamlit) | SAP S/4HANA

Professional: Cross-Functional Collaboration | Communicating to Non-Financial Stakeholders | Attention to Detail

PROFESSIONAL EXPERIENCE

Incedo Technology Solution Limited, Gurugram, India
Associate *May 2025 – Present*

- Budgeting and forecasting across 5 departments ran on an informal 4 week cycle. Consolidated department inputs into a standard process, cutting the cycle to 11 days and lifting forecast accuracy 18% quarter on quarter.
- Cost lines across 5 cost centers showed unexplained gaps to budget. Ran monthly variance analysis against budget and forecast and worked with owners on every item, identifying ₹25L+ in deviations all resolved within 15 days.
- Monthly P&L and MIS reporting took 4 hours per cycle through manual work. Automated it with Power Query, Macros/VBA and Power BI dashboards, cutting preparation to 35 minutes and delivering on Day 1 of close instead of Day 3.
- Services worth ₹18L were delivered but not billed, with no tracking. Built an unbilled revenue tracker, bringing ageing beyond 30 days to zero within 60 days.

ArtHousing Finance Limited (NBFC), Delhi, India
Associate, Financial Operations *Nov 2024 – May 2025*

- Daily reconciliation across 5 systems took 3 hours and left 8 to 10 unmatched items. Rebuilt it with Excel Power Query, cutting time to 40 minutes and unmatched items to under 2, with zero carryover in 11 of 12 months.
- Incorrect vendor rates were reaching approval undetected, creating TDS risk. Designed a vendor rate validation control, taking TDS misapplication to zero over two quarters and avoiding filing penalties.
- Flagged discrepancies had no consistent follow up. Closed every exception with vendors and teams within set timelines and kept audit-ready records.

PROJECTS

- RBL Bank Ltd., Independent Equity and Financial Analysis: research report with scenario valuation and a monitoring dashboard of catalysts and risks.
- AI Forecasting Dashboard: Python and Streamlit tool that automates forecasting and flags deviations from trend.
